I have witnessed several of Professor Adrien's magical per formances, which were so sationishing that many person thought that they could not be done without the sid of som other than mere human power. Adrien's Furnished Te-Table, Pails of Water, and some other tricks, were enough to make the superstitious timorous and the credulous straid but he afterwards assured the audience (private parties that at a proper time he would be ready to show the phile sophyof his performances, and prove that all were mer-marked Hustons.

I think it is no more than justice to make the above statement, as I find there are many reports circulated respecting Adrien's performances which, if uncontradicted, might prejudice the public against witnessing his wonderful feats. JOHN W. FORTER, 335 Broadway.

Hear what Rev. Dr. Shaw, of Demarara, West Indies, says.—

During my visit in New York I attended two of Professor Adrien's magical performances, given at private parties, and During my visit in New York I attended two of Professor Adrien's magical performances, given at private parties, and so wonderful were two or three of his tricks that the question was raised whether such things could be done wishout appernatural aid.

I think that slarge class of persons fond of amusement and instruction will be delighted with Professor Adrien.
